

Men's Judging Criteria

Bodybuilding

All suit bottoms must be V-shaped. Suits worn by male competitors must be plain in color with no fringe or wording.

Muscular Proportion: Competitors will be instructed by the Head Judge to stand erect with their feet together, and arms down to their sides of their torso, shoulders and head facing directly front.

Competitors will make quarter turns to the right on command as they are judged on overall balance and shape of their physique. Competitors should be slightly flexed, not aggressively posing. Feet will remain flat on the floor while the body and head facing stage left and right for each side pose.

Their structure should be overall aesthetically pleasing from all four sides viewed.

Muscular Development and Conditioning: Competitors will perform a number of mandatory poses on command of the Head Judge. The competitors will be judged on overall muscularity, size, muscle shape, fullness, and muscle density.

- Conditioning is judged on the competitor's distinct muscular detail level that separates the different muscle groups of their physique while attaining the mass and fullness of their muscle groups. An overly conditioned and very lean runners look will not be scored highly.
